

Notice of Termination Form

Construction Stormwater General Permit

Permit # WAR _____

Use this form to request termination of permit coverage.

I. Operator/Permittee (Party with operational control over plans and specifications, or day-to-day operational control of activities which ensure compliance with SWPPP and permit conditions. Ecology will send correspondence and permit fee invoices to the permit holder on record.)

Name:		Company:	
Mailing Address:			
City:		State:	Zip + 4:
Business Phone:	Ext.	Cell Phone:	E-mail:

II. Site Location/Address

Site name:		Total area of soil disturbance for your site/project: acres	
Street address (or location description):			
City (or nearest city):		County:	Zip:

III. Construction Activity

The site is eligible for termination by one of the following methods:

<input type="checkbox"/> Construction was never started.
<input type="checkbox"/> The site has undergone final stabilization. (<i>Permit Condition S10.A.1</i> . See instructions for definition.)
<input type="checkbox"/> Permit coverage on all portions of the site that have not undergone final stabilization (<i>Permit Condition S10.A.1</i>) are being, or have been, transferred (<i>Permit Condition G9</i>), and the Permittee no longer has operational control of the construction activity.
We provided the new owner Transfer of Coverage form on: (date)
Please provide new owner contact info:
<input type="checkbox"/> All portions of the site that have not undergone final stabilization (<i>Permit Condition S10.A.1</i>) have been sold and the Permittee no longer has operational control of the construction activity. We will not be submitting Transfer of Permit coverage paperwork. (Optional).
Please provide new owner contact info:

IV. Certification of Permittees

Please read the certification statement carefully before signing.

"I certify **under penalty of law** that all stormwater discharges associated with construction activity from the identified site that are authorized by the National Pollutant Discharge Elimination System (NPDES) and State Waste Discharge general permit have been eliminated, or that I no longer own or operate on this site. I understand that by submitting this Notice of Termination that I am no longer authorized to discharge stormwater associated with construction activity by the general permit, and that discharging pollutants in stormwater to waters of the state of Washington is unlawful under the Clean Water Act where the discharge is not authorized by a NPDES permit. I also understand that the submittal of this Notice of Termination does not release the permittee from liability for any violations of this permit or the Clean Water Act."

Date

Instructions for Notice of Termination Form

The permit fees will continue until Ecology terminates the permit coverage. Continue complying with permit conditions until notified that coverage has been terminated.

I. Operator/Permittee

Give the name, address, and telephone number of the person who is responsible for the permit. This person will also be sent the final fee invoice.

II. Site Location/Address

Enter the street address or location description, including the city or nearest city and county for the construction site. Construction sites that do not have a street address must also provide a legal description in the space provided, or as an attachment.

III. Construction Activity

Indicate:

- The construction project has not started and there are no other sources of construction stormwater.
- That all stormwater discharges associated with construction activity are eliminated and final stabilization of all exposed soils is completed. ***Final stabilization means*** the establishment of a permanent vegetative cover, or equivalent permanent stabilization measures which prevent erosion. You are certifying that:
 - Soils are no longer being disturbed.
 - All permanent vegetative cover is fully established and growing.
 - All exposed soils are permanently stabilized to prevent erosion.
 - All temporary sediment and erosion control BMPs such as catch basin filters and silt fencing, etc. are removed.
 - All Low Impact Development (LID) Bioretention and Rain Garden facilities are fully functional and free of sediment accumulated during construction.
 - All stormwater discharges associated with construction activity are eliminated.
- That the permit has been transferred to another responsible party(ies) for management. (***Provide the information required on the Transfer of Coverage form.***)
- That all portions of the site that have not undergone final stabilization have been sold.

Use this option for residential construction where the permittee has completed temporary stabilization and the homeowners have taken possession of the residences.

IV. Certification of Permittee(s)

Read this statement carefully. The operator, or authorized representative of the operator, must print his or her name for clarity, then sign and date the document on the lines provided.

This form must be signed by one of the following:

- A. In the case of corporations, by a responsible corporate officer.
- B. In the case of a partnership, by a general partner of a partnership.
- C. In the case of sole proprietorship, by the proprietor.
- D. In the case of a municipality, state, federal, or other public facility, by either a principal executive officer or ranking elected official.

Please sign and return this original document to the following address and retain a copy for your records:

Department of Ecology
Permit Fee Unit
PO Box 47600
Olympia, WA 98504-7696

Note: Your site remains under permit and subject to all permit conditions until your termination is effective. Continue to comply with permit conditions ***until the earlier of the following two dates:***

- 1) The date you receive written notification from Ecology that termination is effective.
- 2) The 31st day following Ecology's receipt of a complete NOT form.
